

# CTS 05

## THINNER / STRIPPER

### TECHNICAL DATA SHEET

**CTS 05** is an environment friendly solution which does not contain any CFC's and is RoHS compliant. It can be used both as a Thinner and as a Stripper for Acrylic based conformal coating '**MAC 25**' as well as Silicone based conformal coating '**SILICOAT**'.

At times, as per the requirement, the viscosity of the conformal coating may be required to be lowered or to be restored to its original viscosity. In such cases, **CTS 05** can be used as a Thinner by simply adding a pre-determined amount to the conformal coating being used.

In instances where the conformal coating has to be removed from the printed circuit board or component, **CTS 05** can be used as a Stripper. This can be achieved by soaking and cleaning with a brush having nylon bristles.

PROPERTY	TEST STANDARD	VALUE
Chemical Type		: Proprietary
Color		: Clear
Appearance		: Transparent
Density	IS: 10026-II-1999	: 0.85 gm/cc
Viscosity (Ford cup No.4)	IS: 10026-II-1999	: 11.2 sec
Solids content	IS: 10026-II-1999	: NIL

<b>PACKING :</b>	<u>Description</u>	<u>Packing</u>
	Bulk	5/20 Ltr

**SHELF LIFE:** 1 Year from date of shipment

**HANDLING & STORAGE:** Avoid contact with eyes and skin. Protective gloves and goggles should be worn. Avoid inhalation of vapors. Use only in well ventilated areas. Keep the product away from fire and heat as CTS 05 is flammable. Store in a cool, dry room at room temperature in tightly closed container.

The information contained herein is offered in good faith and is believed to be accurate. However, because conditions and methods of use of the product are beyond our control, this information should not be used as a substitute for customer's tests to ensure that our products are safe, effective and fully satisfactory for the intended end use. Our sole warranty is that the product will meet the sales specifications in effect at the time of shipment.
